

What is IBC?

A working definition: Inflammatory Breast Cancer (IBC) is a rare and very aggressive disease in which cancer cells block lymph vessels in the skin of the breast.

This type of breast cancer is called “inflammatory” because the breast often looks swollen and red, or “inflamed”.

Our Mission

- To fund research regarding Inflammatory Breast Cancer.
- To provide an avenue to network proactive education to the general population as well as the medical community regarding Inflammatory Breast Cancer.

Resources

TalkIBC Podcast

Talk IBC is where we discuss things related to inflammatory breast cancer, from patient's personal stories to the latest in research. This podcast is sponsored by The IBC Network Foundation.

Online Forum

The IBC Network Online Community is for those who have been impacted by inflammatory breast cancer.

Download the app

This informative and interactive app is available to anyone wanting to know more about Inflammatory Breast Cancer.

Search The IBC Network Foundation on iTunes and Google Play.

Ultimate IBC Meet Up

The Ultimate IBC Meet Up is for anyone impacted by inflammatory breast cancer. Patients, Survivors, Caregivers, Advocates, and anyone interested in learning more about IBC. The meet up sessions will include education regarding IBC, personal physical and mental health, motivational speakers, and our Sunday "Hug", which is where we gather for a grab and go breakfast, or relax and enjoy each other's company for a last few minutes.

Current or Aspiring IBC Researcher?

We know that obtaining IBC focused grants is a huge challenge.

- Ask us about seed funding for IBC/TNBC research.
- Need a patient advocate for a grant? Let us network you with an advocate
- Advocate for IBC/other metastatic focused research on study sections as the patient voice.

**THE IBC
LEARNING
ACADEMY**

The IBC Learning Academy is a rigorous course with the objective of training devoted Inflammatory Breast Cancer advocates.

[IBCLearningAcademy.org](https://www.IBCLearningAcademy.org)

Our goal is to reach a diverse target audience of patients and professionals with a passion for improving the lives of those affected by IBC. Trained advocates will be empowered to promote the unique needs of IBC patients by improving access to specialty care, increasing education around clinical trials, and participating in lobbying.
